

SUTEX BANK COLLEGE OF COMPUTER APPLICATIONS & SCIENCE, AMROLI

S.Y.B.C.A. PROGRAMME-2024

PRACTICAL ASSIGNMENT

SUBJECT: 403: JAVA PROGRAMMING LANGUAGE

SR NO	AIM	DATE	PAGE NO
1	Write a Java program to print the sum of two numbers.		
2	Write a Java program to accept a number and check the number is even or not. Prints 1 if the number is even or 0 if the number is odd.		
3	Write a Java program to print the sum (addition), multiply, subtract, divide and remainder of two numbers arithmetic operation will be of user choice.		
4	Write a Java program and compute the sum of the digits of an integer. Go to the editor Input Data: Input an integer: 25 Expected Output		
5	The sum of the digits is: 7		
6	Write a Java program to reverse a string		
7	Write a Java program to print the odd numbers from 1 to 9. Prints one number per line.		
8	Write a Java program to count the letters, spaces, numbers and other characters of an input string.		
9	Write a Java program to print the ascii value of a given character.		
10	Write a Java program to capitalize the first letter of each word in a sentence.		
11	Write a Java program to display the system time.		
12	Write a program to input Employee Details and display it on proper format. (Employee id, Employee name, Salary, Department)		
13	Write a Java program to get the larger value between first and last element of an array (length 3) of integers. Go to the editor. Sample Output: Original Array: [20, 30, 40] Larger value between first and last element: 40		

14	Write a Java program to reverse a word.		
15	Write a java Program that Accepts String Data from User and then Provide options for Changing case into any of the Following. (UPPERCASE, lowercase, Sentence case ,Toggle CASE)		
16	Write a program which design Bank Account class as Saving and Current Account and manage information accordingly.		
17	Write a program to add two numbers using function overloading.		
18	Write a program to design three classes that accept dimension of triangle and rectangle and calculate area of rectangle and triangle.		
19	Write a program that creates two interfaces 1. Direction 2. Drive Car. And creates two classes 1. DirectionBoard 2. Car which inherits above interfaces.		
20	Write a program to demonstrate partial implementation of interface and extending interfaces.		
21	Write a program to accept 5 command line argument and then raise the custom exception if any argument is not from the list ("BCA","MCA","BBA","MBA","OTHER").		
22	Write a program to demonstrate throw and throws keyword.		
23	Write a program to demonstrate custom exception called NageitiveNumberArgumentException.		
24	Write a program to input command line argument and display those string which start with 'A' and 'a'.		
25	Write a program to input two strings search similar characters from both string and replace it with '*'.		
26	Write a java application which accepts two strings. Merge both the strings using alternate characters of each one. For example: If String1 is: "Very", and String2 is: "Good". Then result should be: "VGeoroyd". in java		

27	Create package stores. Under it create a class called stock with member variable (item_no, item_name, stock_available, and cost). Under the default package create a class called sales with field name (qty_sold) and it is the child class of stores class. Write a program to print the current stock of each item and perform addition.		
28	Write an application that executes three threads from one thread class. One thread displays "JAVA" every 1 second. another display "PAPER" every 2 seconds and last one displays "COLLEGE" every 3 seconds. Create the thread by using Runnable Interface.		
29	Write a java code which accepts name a of 10 students. Sort the names of students in ascending order. Display the names of students using thread class at interval of one seconds.		
30	Write a program to demonstrate thread priorities.		
31	Write a program to demonstrate thread synchronization.		
32	Write a java code (application) which display current Date and Time Use thread class to execute the code.		
33	Write a java application which accepts 10 names of student and their age. Sort names and age in descending order. Display the names of students using thread class at interval of one second.		
34	Write a java program that creates Singly Link List to perform create, insert, delete and display node using menu driven program.
